

Five-Day Online Research Methodology Workshop

for Social Science Researchers

📅 15-19 September 2026

🖥️ Online · Live Sessions

🕒 20 Sessions across 5 Days

Rigorous methodology is the foundation of credible social science scholarship, yet structured training in it remains scarce. This workshop offers a comprehensive introduction to the philosophy, design, and practice of social science research — from theory and literature review through data, sampling, statistics, ethics, and academic writing.

🕒 WHO SHOULD ATTEND

- Early- to mid-career researchers in the social sciences
- Doctoral scholars strengthening their methodological foundation
- Teachers seeking to mentor students in research methods

🎯 WHAT YOU WILL GAIN

- Command of research design suited to your questions
- Fluency in India's key secondary data sources
- Sharper statistical, ethical & writing practice

THE FIVE-DAY RESEARCH JOURNEY

- 15 Sept · Foundations:** Philosophy of science · Role of theory · Identifying research issues · Reviewing the literature
- 16 Sept · Design & Approaches:** Inter/trans/multidisciplinary approaches · Research design · Qualitative methods
- 17 Sept · Data:** Time Series Analysis · Census & NSSO data · Trade & RBI data · Internet-based sources
- 18 Sept · Rigor:** Survey design · Minimising bias & error · Experimental methods
- 19 Sept · Analysis & Ethics:** Statistics and Econometrics · Hands-on Sessions · Research ethics · Report writing
